Tour Itinerary

Wouldn't you want your marriage proposal to be more special than the usual ones? What about sharing an unforgettable, special memory with your loved one instead?

Marriage is one of the most important events that could happen in a person's life. Two people decide to spend their whole life together, and sign papers for that, which might be the biggest decision in their whole life. If you believe that this is true, you also have to know that, the beginning of this journey must be special. That's why we recommend you to our special yacht cruise for couples.

We, as Turkey Acetes Travel, can provide that opportunity for you. Propose her in the middle of the night, in front of a gorgeous view by the sea, a nice reflection of the moon, and with the soft, peaceful sound of the waves.

The proposal to marry against the Maiden's Tower during the sunset in the Bosphorus, accompanied by a violin concert, will be truly fascinating.

We wish you a great wedding and a happy life. Hoping to see you soon. We promise you won't regret it.
